

Be Thankful for Knowing in November and Giving Back

Guilderland, NY - What does Be Thankful for Knowing in November and Giving Back really mean? Well, for starters it is taking a moment to be thankful for all the things that you actually know. Maybe you figured something out on your own by doing your own research, or maybe you learned it from a teacher, your dentist, a family member, or something you read or saw on the tv. It is a great feeling when you fully understand, and truly know something, especially learning from someone who has dedicated their lives to educate you.

Teachers educate children and adults every day. Their knowledge of things that they researched and planned to teach, takes a lot of dedication and time, and they give that back to you. But did you know that your dentist does the same thing? At Oshins of Smiles, Dr. Oshins is not only a dentist, he is an educator in the field of dentistry. He gives back to all of his patients by educating them in total body wellness and oral health. He takes the time to keep up with new advances in dentistry and dental sleep medicine, so that he can fully take care of every single one of his patients. He gives back his knowledge to you with all of his educational and hands on experiences. As a Kois graduate, Dr. Oshins received advanced training in dentistry by learning from the best of the best in the field of dentistry. He went over and beyond his education in dental school to go the extra 10 miles, to better educate himself by attending the Kois Center. In addition, Dr. Oshins did his Dental Sleep residency at the University of North Carolina to help his patients that may have a sleep breathing disorder, and ultimately add years on to their lives by creating oral sleep appliances to open airways. He did this to gain more knowledge, not just for himself, but for all of his patients. Giving Back! On top of all of those amazing accomplishments, Dr. Oshins teaches dental residents at Ellis Hospital to further educate them with all of the techniques, skills and exceptional patient care he has learned throughout his schooling and career, so that they too can become high quality dentists.

Be thankful for knowing that you have a dentist that is passionate about dentistry and the overall health of his patients. Check out the Oshins of Smiles website at www.oshinsofsmiles.com. Call us today to set up your initial exam. Let Dr. Oshins give back to you, and you will be thankful for knowing that there is a dentist that is willing to put every ounce of his knowledge and energy for the well-being of all of his patients' health. Spread the word!! Many thanks!

Have a Happy and Safe Thanksgiving!!
