

## OUR CURRENT REALITY

We have all heard the phrase “Stop and smell the roses”, but many of us are always on the go. Being so busy we often don’t have enough time for the things we really cherish the most, our family, friends, and nature to name a few. We are busy with jobs to keep food on the tables, and a roof over our heads.

In a blink of an eye we are hearing the terms, social distancing and pandemic. In this unprecedented time, we are all feeling the effects of the COVID-19 pandemic. With social distancing being strongly recommended as being the key to reducing exposure and ending the outbreak, we at Oshins of Smiles hope and pray for your good health and safety. While it is difficult to process all that is happening, take the time to be with your family, take a walk, make happy memories, and with springtime flowers starting to bloom, “stop and smell the roses”. Stay positive, stay strong, and be thankful for all the people that are working tirelessly to keep us all safe.

At this time, until we get the “all clear”, at Oshins of Smiles we will only be seeing patients for emergency procedures, taking into account all of the protocols for your safety, and ours, so that we can continue to take care of you. Please do not hesitate to call our office if you are having a dental emergency. (518) 356-5635.

Stay safe, and do not forget to floss and brush your teeth every day!!!

**Keeping everyone in our thoughts and prayers.**
